

HIGH DESERT ESTATES NEWSLETTER

By the Community, for the Community

With your bill this month **we are including a survey** that we really need you to read, fill out, and return to us with your water bill payment. As we have set up a notification committee to let everyone know when there is a temporary water problem, or some other issue that affects anyone or everyone of our homeowners, we are wanting to update our records. We are really needing correct phone numbers for every home, and if you have email, it would be great to have those all updated as well. **This bill is also the new one reflecting the increase from \$50.00 to \$55.00**, so be sure to notify your bank of the change if you have a check sent to us automatically from them so you can change the amount.

Board Meeting Summary

All regular board meetings are held at 4 PM at HOA Office 5980 SE Jerry Drive

Presented by:

Mike Kruskopf
Board President

UPCOMING BOARD MEETING

November 14 December 12

- **Diane and Allen Dendy** have been meter readers on the first day of the month for many years, along with the many other "jobs" they have had around our HOA, and we thank them for all those years of devotion braving the weather and all the walking! **They are stepping down now and a new couple have volunteered** to take their place, and began training on November 1st. Their names are Steve and Joray and live on David Way.
- The date has been selected for the second annual **Christmas Parade for our HOA, and it is Saturday, December 21st**. We hope the weather cooperates and people decorate their trucks or 4x4's and join in the fun, or just walk the route, which will be announced in the December Newsletter.
- Now that it is approaching winter snow time, Allen Dendy has **our Dodge service truck ready to serve with its beautiful snow plow**, and the new green garage to store it in up behind the office on Jerry Drive. We have three designated drivers for the Dodge to blade and plow, and one homeowner who will blade SE Davis Loop with his own John Deere tractor and blade.
- **With winter approaching**, this is just a reminder to check on your neighbors to see if they need help with any snow shoveling or to pick up something in town for them if they don't like driving in the snow.
- The **annual backflow device project in October has been completed** and we are very happy to report there were only five backflows out of the 138 tested by Burris Plumbing that were not operating correctly and the homeowners for those lots have been contacted and have arranged repair and retesting Thank you!
